Subject: 27th IEEE ICCIT 2024: Notification of Decision of Paper ID: 227

To: Fahim Faysal Sakib <fahim.sakib.10@gmail.com>

Dear Respected Fahim Faysal Sakib,
Congratulations!!

It is our great pleasure to inform you that, your manuscript -

Paper ID: 227

Paper Title: Evaluating Heuristic Approaches for Solving 0/1 Knapsack and MMKP: A Comparative Study

has been accepted for presentation at the 27th International Conference on Computer and Information Technology (ICCIT 2024) [IEEE Conference ID: 64611]

Please inform this decision to your co-authors of this paper, if any.

Each paper is reviewed by at least two expert reviewers in the relevant field through a double-blind peer-review process. Based on reviewers' comments and recommendations, TPC prepared the final decision for each contribution. To view review comments, please login to the author's panel [to be updated shortly]

<https://cmt3.research.microsoft.com/ICCITconf2024/>

For publishing in the conference proceedings, a camera-ready final version of your manuscript is required along with the IEEE copyright. In the camera-ready version, it is expected that the authors will address the review comments, make necessary corrections and formatting, and maintain a low similarity score (generally below 30%). For detailed information about preparing and uploading the camera-ready version of a manuscript, please follow the guidelines provided in the 'Camera Ready Submission' section of the conference website [to be updated shortly].

Authors of accepted papers are invited to register, make the payment, and present their research papers in the scheduled conference sessions.

A paper will appear in the proceedings if at least one of the authors of accepted paper registers before the registration deadline, uploads camera ready materials properly in the CMT system, completes IEEE e-copyright and presents the paper during the conference. IEEE reserves the right to exclude an accepted paper from distribution after the conference, including exclusion from IEEE Xplore, if the submission does not meet IEEE standards for scope and/or quality. Articles excluded from further distribution shall be archived by IEEE but shall not be indexed or appear on IEEE Xplore.

Keep an eye on the conference website: <https://iccit.org.bd/2024/>
for updated submission guidelines, additional requirements for hybrid conference, travel and

accommodation, and the program schedule. We hope that your vibrant participation will make the conference event a great success.

Sincerely,
Technical Program Committee
27th International Conference on Computer and Information Technology
